

# Cirque Du Freak Recipe

## Ingredients:

1.5 cup of vampires, 1 gallon of circus freaks, 2qts. of boys, 2 cups of graveyard, 2 gallons of dramativity and heart-pumping excitement, also a bowl of plot twists, and lastly a pinch of school and normal life.

## Head Note:

This recipe has gone back a few years ago. It's made up of great drama and ingredients that just makes want to have seconds. The main ingredient is the boys. There are many more recipes (volumes) of this specific dish. But the original is always the best.

## Steps:

Start off with the pinch of school and normal life. (Wait until it gets to the happy moments before you add the next step). Then add a finely chopped 2qts. of boys and add a crumbed gallon of circus freaks. After the circus freaks have melted away, add the 2 gallons of dramativity and heart-pumping excitement and the bowl of plot twists. After 1qt. of one of the boys melt away, add the 1.5 cups of vampire, if you do this correctly then the melted away qt. of boy comes back nice and smooth at the surface. Then add 2 cups of graveyard and the 1.5 cups of vampire should mix together nicely with the 1qt. of boy. That's when the heart-pumping moments should mix everything all together, and you're ready to go!

## Serving Suggestions:

You can add a chunk of spider if you'd like for more taste, but if you do then you must add a sprinkle of sister, flute, and antidote or it'll taste disgusting!
